Design, development and production, service and testing of weapons, reconnaissance and

ammunition systems of ground military equipment.

Production, testing, delaboration, revision, life extension and ecological disposal of ammunition and ammunition elements.

1. This Certificate is issued by Defence Standardisation, Codification and Government Quality Assurance Authority after quality system audit carried out from July 14th, 2026 to July 15th, 2026. The Authority is not responsible for quality system changes implemented by the contractor after this Certificate has been issued.
2. This Certificate is valid solely for verified scope of activities and must not be used for other scope of activities than for which it is issued.
3. The Authority is responsible neither for unauthorized use of the Certificate nor for damage which could be caused by both authorized or unauthorized use to a third party.
4. This Certificate does not replace quality guarantee and contractor's responsibility for flaws and damage resulting from generally accepted legal regulations nor does it replace official verification in accordance with other generally accepted regulations.

This Certificate is valid till: July 31st, 2028

In Prague on: August 7th, 2026

Jaroslav LINHART, Ph.D.
Director
